DETAILED ACTION

Allowable Subject Matter

1. Claims 1-15 are allowed.
2. The following is an examiner's statement of reasons for allowance: it is agreed that the prior art of record fail to teach or suggest, alone or in combination, the limitations: "an input of the unity gain buffer being a voltage at one of a source and a drain of the transistor during a programming stage, wherein the unity gain buffer reproduces the voltage during a reproduction stage" in a manner claimed in claims 1, 9, 11, 12, 13 and 14. The preamble has been incorporated into the body of the claims because it "breathes life into the claims." It is for these reasons in combination with all the other limitations in the independent claims 1, 9, 11, 12, 13 and 14, that claims 1-15 are allowed.
